✅ Organisations worked together more closely

This helped children and families get support more easily

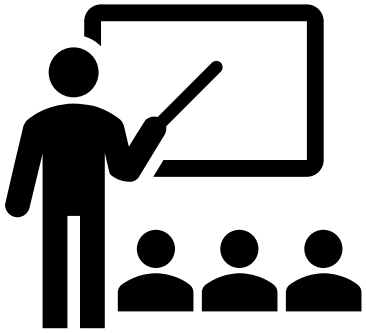

✅ We listened to children and young people.

They told us what is important to them.

They told us through:

- Surveys
- Groups
- Talking to advocates who speak up on their behalf

Learning and Improving

When a child is seriously harmed we look at what happened

We learn from this so we can help keep children safe

This year:

- We completed **5 quick reviews** of serious incidents
- We completed **1 detailed review** to understand what happened and what we can learn.
- We shared what we learned with organisations that help children and families.

Important things we learned about:

- Children being neglected (not getting the care they need)
- Domestic abuse
- Child sexual abuse
- Children being exploited or harmed by others

Next Year We Will:

➞ Keep helping children and families who need extra support

➞ Improve services for children and families

➞ Help older teenagers stay safe as they become adults

➞ Use information to understand what children and families need

➞ Keep listening to children, young people and families

➞ Learn from what has happened to make services better

Our Promise
